

**CLEAR (Center for Lean Engagement & Research in Healthcare)
Fall 2017 Research and Initiatives**

As a partner to CLEAR (Center for Lean Engagement & Research in Healthcare), Rona Consulting Group, the lean consulting practice of Moss Adams, is pleased to share some of the initiatives and results from this past fall:

- [Lean Action Learning Research Collaborative](#)
- [New Annotated Bibliography Update 10.20.17](#)
- [National survey data presented at Stanford Lean Healthcare Conference](#)

We appreciate the work of the hospitals that have helped to build the research so far and to give us all a better understanding of the state of lean efforts and transformations in healthcare. We are especially proud of several of our clients who have become member hospitals under the collaborative. We look forward to learning more from the studies.

Please visit CLEAR's [website](#) for more information, or reach out to us directly.
